*RAVE REVIEWS:*

*"What an experience!"*

*"Thank you for a well organized efficiently planned learning experience."*

*High schools partner with Oracle to secure the present and achieve the future via curriculum, professional development and technology.*

## Comprehensive Curriculum

Customized relevant curriculum prepares students for higher education, industry certification and a career

Three, 180-hour course contain lessons, instructor guides and assessment tools
- Database Design & Programming – OCA Exam 1
- Database Application Development – OCA Exam 2
- Java Programming – APCS Exam

Exceeds IT Career Cluster and Perkins funding requirements

## World Class Professional Development

Instructors conclude the Academy Institute confident and excited to teach students

Our all-inclusive, comprehensive preparation includes:
- 50 hours online and 50 hours in-class
- Oracle Academy instructor certification
- Airfare and accommodations at UCLA

Over 95% approval rating from all participating instructors.

## Easy to Use Oracle Technology

The Academy runs on existing computer lab equipment connected to the Intranet

- "Plug and Play" architecture removes technical burden from district/school
- Instructors and students work on an online learning management system
- Schools use a browser to access their database development environment

## One-time Participation Fee

$2,000 for Database Design & Programming - SPECIAL DISCOUNT
- $1500 if school sends PO by December 15, 2004
- $1000 if 10 or more schools send PO by December 15, 2004.
